

iQ-Migrate™

Preparation, Planning and Experience are the key

The Qualex iQ_Migrate™ Service is designed to help existing SAS customers with their migration to SAS 9.2. It includes three modules:

- 1. Planning Module** — Our consultants will build an upgrade and maintenance plan for your new SAS®9 version. We will consider hardware and operating environment issues that can affect your migration timeline. We will review any issues that are specific to your operating environments, including operating environment changes or upgrades.
- 2. Execution Module** — Our experienced consultants will calculate whether your existing SAS files are compatible in your SAS®9 operating environment or whether you must migrate the files to SAS®9 format. We will work with your IT staff to create backups and benchmarks, install SAS 9.2, Migrate files and metadata for optimal performance. We will provide reports that validate a successful migration.
- 3. Knowledge Transfer Module** — while on-site, we will work hand-in-hand with your IT staff and end-users to transfer critical know-how. We will also conduct specific workshops to make sure, once the migration is completed, you can continue using the best Enterprise Intelligence Platform to its fullest potential.

The iQ-Maintain™ service is offered for a minimum of four months. After this initial period, either Qualex or the client can terminate the service without any additional responsibilities or costs. The decision to conclude services requires a one-month notice. The notice provides Qualex time to conclude any pending services. Your organization will pay for maintenance services according to the standard Qualex consulting fee schedule. Payment includes all appropriate taxes according to local laws. Services are paid monthly. Qualex can increase its maintenance fees only once a year. The annual increase will not exceed 10%.
