Qualex Consulting Services, Inc.

QUALEX FINANCIAL PRACTICE

One of the most challenging tasks for the financial analyst is to interpret technical information that is relevant to the operational needs of the organization and provide the results to management. Getting your financial breakdown with up- to-date data when it is needed is crucial for a business success. Having software tools that provide real time solutions is a huge advantage for the highly competitive Financial Industry.

Qualex can help you keep your financial information organized, accessible and up-to-the-minute so that you can have your data deployed to business users for more efficient and effective management of their responsibilities.

Qualex provides extensive services to the Financial Industry, including:

- Application software development and maintenance in support of critical data and Grid system. Qualex's knowledge of SAS intelligence helped move data to a more rapid workflow allowing for additional process to be more effective.

- SAS Migration from 9.2 to 9.3 and 9.4 versions, including preparation, deployment, execution, validation, rollout and training to SAS business and technical end-users.

- Analytical insights to enable the business to continually drive growth through the company's mobile applications and website, including hand held devices for banking online.

- Full banking CRM solutions, which include payment risk, cross-sell, up-sell and risk management models.
